Cash Income and Outgo of the Treasury, Fiscal Year 1939

(Three figures are not rounded to reflect the budgetary position of the Government. They will not agree with underlying figures on monthly expenditures and deficit such as those appearing in Daily Treasury Statements and in other tables in this Bulletin. The expenditures at the particular seats in Daily Treasury Statements figures in excess of this week series. See the text in February Bulletin. All figures in the series of the page have been revised to accordance with that explanation.)
